LA F16 Night Vision/Thermal Imaging Texas Hog Hunt for 4 Hunters – Unlimited Hogs!
Clark Osborne ~ Tactical Hog Control

Equipped with current, military-issue night vision and thermal imaging equipment, you and three friends will have the opportunity to fill your freezer with delicious wild pork and play with some serious big-boys' toys! This is an all-inclusive, 6 hour, night-time hunt. All you need is an itchy trigger finger and everything else is supplied for the hunt. Feral hogs are considered as an "exotic" species, so there isn't a closed season. There are NO LIMITS on the number of hogs that you can shoot and no trophy fees. Everyone in the group will be wearing helmet-mounted, aviator-style ANVIS 9 night vision goggles. These are the same state-of-the-art and combat-proven Generation 3 goggles that our military pilots wear today. You will be shooting legally-suppressed AR-10's and AR-15's. Some of these rifles are equipped with 6-power, Generation 3 Night Vision scopes; the rest are topped with Thermal Weapon Sights....so seeing the hogs WON'T be a problem! During the hunt, you will be transported in a custom Polaris Ranger Crew or a Ranger Special-Operations Vehicle. All ammunition and refreshments will be provided, so you can sit back and enjoy the ride. THC has over 180,000 acres to hunt. All hunting ground is low-fence and open-range. This IS NOT a canned, high-fence hunt....so you're helping a farmer with every hog that you harvest! This hunt must take place before September 30, 2012. Contact THC for available dates and details. Additional shooters and observers can be added – see price list. Because of the high quality of their gear, US citizenship is required. Additional fees apply for meat processing and/or caping.
