LA S05 5 Day Kansas Whitetail Deer Hunt for One Hunter
Wes Traul ~ Kansas Unlimited

Wes Traul of Kansas Unlimited has donated a five day whitetail deer hunt for one hunter in Kansas. Kansas has a well-deserved reputation for producing quality whitetail deer. Abundant crop ground, mild winters, quality genetics and limited access allows these animals to reach their full potential. As both landowners and as operators, Kansas Unlimited has some of the best private land deer hunting available. This hunt may be taken during the rifle season (late November) or Archery Season (October – November). Because the Archery season covers rut, the outfitter recommends taking this hunt during prime rut dates as a bow hunt. All animals taken must have at least 4 points per side, with antler width wider and height taller than the ears. This hunt includes the services of a guide, meals, and lodging. Lodge accommodation includes living room with satellite TV, dining room, kitchen and showers. Transportation to and from the lodge, Licenses, deer tags, meat processing and caping and shipping are not included. Additional hunters and non-hunters may be added per the current price list. *Please see Wes Traul in his booth for more information on this great hunt!*

LA S07 Original Oil Painting entitled "Buffalo Brothers"
Rynold Steenkamp

This framed original oil on canvas measures 50 X 30 inches. The painting was inspired by the artist's experiences photographing buffalo in the thorn scrub typical of northern Zululand. "The cape buffalo's nature is cunning and dangerous. When you only see one lone bull, beware that there may be others hiding somewhere close. When walking in the thorn scrub of northern Zululand, you have to be on the constant lookout for anything that may be waiting for you behind the next thicket. This happened to me when photographing this buffalo!" *Please see Rynold in his booth for more information on this original piece of art!*

LA S11 Night Vision/Thermal Imaging Texas Hog Hunt for 4 Hunters ~ Unlimited Hogs! Clark Osborne ~ Tactical Hog Control

Equipped with current, military-issue night vision and thermal imaging equipment, you and three friends will have the opportunity to fill your freezer with delicious wild pork and play with some serious big-boys' toys! This is an all-inclusive, 6 hour, night-time hunt. All you need is an itchy trigger finger and everything else is supplied for the hunt. There are NO LIMITS on the number of hogs that you can shoot and there no trophy fees. Everyone in the group will be wearing helmet-mounted, aviator-style ANVIS 9 night vision goggles. These are the same state-of-the-art and combat-proven Generation 3 goggles that our military pilots wear today. You will be shooting legally-suppressed AR-10's and AR-15's. Some of these rifles are equipped with 6-power, Generation 3 Night Vision scopes; the rest are topped with Thermal Weapon Sights....so seeing the hogs WON'T be a problem! During the hunt, you will be transported in a custom Polaris Ranger Crew or a Ranger Special-Operations Vehicle, made by Land Rover. All ammunition and refreshments will be provided, so you can sit back and enjoy the ride...plus you get to see things like you've never seen them before. THC has over 180,000 acres to hunt, including row crops, like corn and soybeans, pecan orchards, creeks, river bottoms and pasture land. All of their hunting ground is low-fence and open-range. This IS NOT a canned, high-fence hunt....so you're helping a farmer or rancher with every hog that you harvest! As far as results go, Tactical Hog Control killed 741 hogs and 17 coyotes in 99 client hunts...that's averaging over 7 critters per night! This hunt must take place before September 30, 2012. Because feral hogs are considered as an "exotic" species, there isn't a closed season nor are there any bag limits or trophy fees. You can contact THC for available dates and details. Additional shooters can be added for \$500 each and observers for \$200 each. Because of the high quality of their gear, US citizenship is required for access. Additional fees apply for meat processing and/or caping. Not included are lodging (motel available for around \$100/night), meals, airport pick up and hunting license. You will need to fly into Houston or Dallas then drive to Madisonville, TX. *Please see Clark Osborne in his booth for more information on this exciting hunt!*
