**LA S35 Framed Original Painting titled: "Reading the Signs" by Jim Kasper
Estate of Howard Holm • Art Barbarians Wildlife Art and Framing**

The signed and numbered Jim Casper original painting "Reading The Sign" is 31x55. Growing up in northern Minnesota gave Jim Kasper early access to the woods surrounding nearby Crow River. He would often be seen rambling along the winding riverbank, collecting bits and pieces of rock, feathers and bone. Each article helped young Kasper gain a better understanding of the world of nature. Following an early career in graphic design and illustration, Kasper returned to northern Minnesota with his family, where he produces art, prints and posters with nature as close as his own backyard. Jim Kasper has translated his knowledge of nature into beautiful art, prints and posters of moose, elk, deer wild turkeys and the like. Conservation groups have recognized Kasper's commitment to wildlife across the country. "My favorite time in the woods is during the beginning of a heavy snowfall. There is an intriguing uncertainty about it that seems to make the whitetail deer active, too. It becomes easier to follow and observe them as we all move about, quietly reading the signs." *Please visit the Art Barbarians to view this beautiful work of art.*
